

Final Iteration Plan (Phase 3)

Programmers on a Budget

Evaluation Criteria: 95% of tests performed on the SmartChart WebApp must be successful for the iteration to be considered a success, including several tests that are deemed critical to the project's functionality by the project team.

| Objective | Work Item | Assignment | Evaluation |
|---------------------------------|--------------------------------|---------------|--|
| Final Documentation | Create Test Plan | Anthony Cox | All documents must be easy to read and understand. |
| | Create Security Document | Anthony Cox | |
| Database | Set up MySQL on server | Paul Sparks | Server must have DB installed and able to store user data |
| | Create basic table structure | Paul Sparks | |
| Working Demo | Prepare highlighted features | Paul Sparks | Critical: Must receive overall positive feedback from audience. |
| | Prepare presentation points | Paul Sparks | |
| System Sequence Diagrams | Display Time Graph | Arielle Ferre | SSDs must be correctly labeled and easy to read |
| | Allocate Funds | Arielle Ferre | |
| | Display Percentage Graph | Arielle Ferre | |
| | Add/Edit Expense Category Rule | Arielle Ferre | |
| Design Document | Add New Class Diagrams | Arielle Ferre | Must be easily readable |
| Use Case Implementation | Display Time Graph | Brian Shannon | Critical: All values must be formatted and display properly |
| | Allocate Funds | Brian Shannon | |
| | Display Percentage Graph | Brian Shannon | Critical: Must be able to create and name expense category rules |
| | Add/Edit Expense Category Rule | Brian Shannon | |
